TOOL PREPARATION

INSTALLATION OVERVIEW

1

Take out part A from the package, unscrew the nut by hand,an remove the nut,silicone washer, an cross plate.
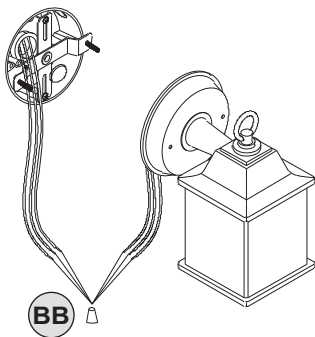

2

Attach the cross plate to the junction box with part AA.
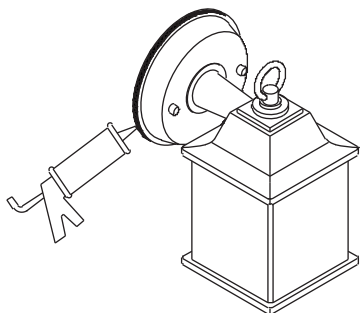

INSTALLATION OVERVIEW

3

Using part BB, connect the fixture wires to the junction box wires. Then carefully insert the wires into the junction box.

4

Place the silicone washe remove in Step 1 onto the screw, then fully secure the fixture by han-tightening the nut.

5

Use a glue gun to apply a bea of sealant aroun the base. Installation is complete.

CARE AND MAINTENANCE

• Before attempting to clean the fixture, disconnect the power to the fixture by turning the breaker off or removing the fuse from the fuse box.
• To clean the fixture, use a dry or slightly dampened clean cloth.
• DO NOT use any cleaners with chemicals, solvents or harsh abrasives as damage to the fixture may occur.
• Clean the lens, lamp head and lamp stand regularly with a non-abrasive cleaner.
Warning: Always make sure the flood light is unplugged and completely cool before attempting to clean it.
