TOOL PREPARATION

INSTALLATION OVERVIEW

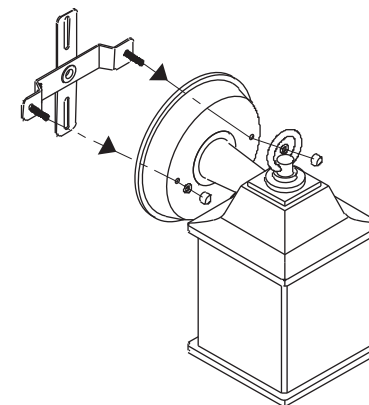

1

Turn off circuit breakers and wall switch to the fixture supply line leads.

⚠ DANGER: Failure to disconnect power supply prior to installation may result in serious injury or death.

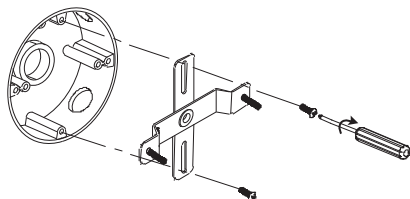

2

Take out part A from the package, unscrew the nut by hand, then remove the nut, silicone washer, and cross plate.

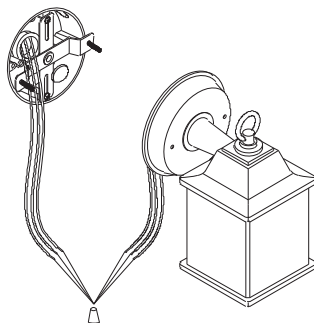

INSTALLATION OVERVIEW

3

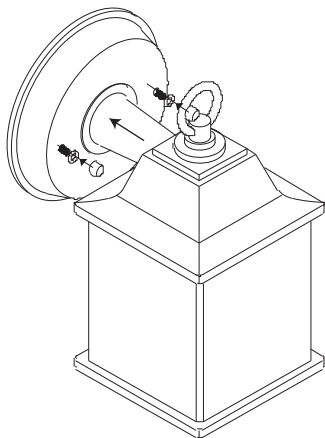

Attach the cross plate to the junction box with installation screws (NOT INCLUDED).

4

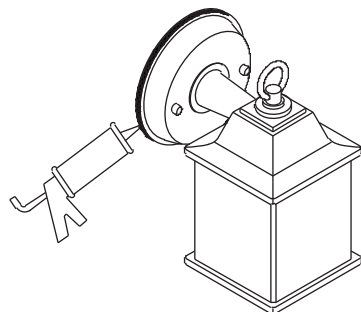

Connect BARE/GREEN ground wire from outlet box to BARE wire from fixture using wire connector (NOT INCLUDED) . Connect WHITE wire from fixture to WHITE wire from outlet box using wire connector (NOT INCLUDED) . Connect BLACK wire from fixture to BLACK wire from outlet box using wire connector (NOT INCLUDED) . Then carefully insert the wires into the junction box.

5

Place the silicone gasket remove in Step 1 onto the screw, then fully secure the fixture by hand-tightening the nuts.

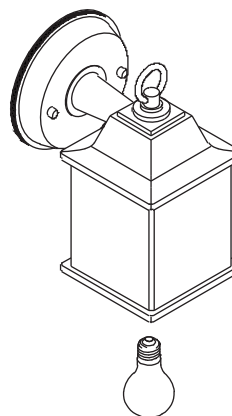

6

Apply sealant (NOT INCLUDED) for watertight protection.

INSTALLATION OVERVIEW

7

Install the light bulb (NOT INCLUDED) you have prepared.

CARE AND MAINTENANCE

- Before attempting to clean the fixture, disconnect the power to the fixture by turning the breaker off or removing the fuse from the fuse box.
 - To clean the fixture, use a dry or slightly dampened clean cloth.
 - DO NOT use any cleaners with chemicals, solvents or harsh abrasives as damage to the fixture may occur.
 - Clean the lens, lamp head and lamp stand regularly with a non-abrasive cleaner.
- Warning: Always make sure the flood light is unplugged and completely cool before attempting to clean it.
